About Access Ready Strategic

Access Ready Strategic Social Purpose Corporation is an independent, cross-disability education and advocacy organization committed to advancing civil rights and equality for all. The organization promotes **digital inclusion** and **accessibility** across all information and communications technology (ICT) platforms.

As business, government, and nonprofit sectors increasingly rely on ICT to deliver goods and services, **accessibility for people with disabilities is a necessity—not a luxury**. Accessible ICT promotes independence, economic self-sufficiency, and meaningful civic participation.

Access Ready Strategic is honored to support these vital policy positions and work alongside fellow advocates across the disability and civil rights communities.
